- HTML
- JavaScript
- WordPress
- Kotlin
- Android TV
- Responsive Web Development
- CSS
- PHP
- Tailwind CSS
- Android
- Media3

Development Tools & Workflow

- Git
- UI/UX Fundamentals
- Requirements Analysis
- GitHub
- AI-assisted Development
- Project Testing & Delivery

PROFESSIONAL EXPERIENCE

Freelance IT & Digital Solutions

2024 – Present

Independent Freelancer

- Develop and deliver websites and digital solutions based on client requirements and project objectives.
- Translate client requirements into practical plans and working technical solutions.
- Develop and manage WordPress, e-commerce and other web-based projects.
- Handle projects independently from planning and development through testing, revisions and final delivery.
- Communicate directly with clients to clarify requirements, provide updates and incorporate feedback.

Administrative & Academic Support Officer

Aug 2025 – Oct 2025

Newcastle International School — Dhaka, Bangladesh

- Managed attendance, leave and academic records for 500+ students and 80+ teaching staff, supporting accurate and timely reporting.
- Prepared monthly payroll and salary-related documentation and supported routine administrative reporting.
- Improved reporting workflows, reducing manual reporting time by approximately 30%.
- Supported CV screening, candidate shortlisting and interview coordination.
- Maintained administrative records and supported day-to-day academic operations.

Program Officer — IT & Technical Support

Dec 2023 – May 2024

National Anti-Tuberculosis Association of Bangladesh (NATAB) — Dhaka, Bangladesh

- Designed, developed and deployed the organization's website using WordPress.
- Managed website content, structure, plugins, updates and ongoing maintenance.
- Provided day-to-day technical support for hardware, software and connectivity-related issues.
- Supported organizational reporting, documentation, meetings and coordination with staff and stakeholders.

PROJECTS

PichiTV | Kotlin, Android, Android TV, Media3, HLS/DASH

- Live TV and media application developed for Android mobile and Android TV.
- Built live TV streaming functionality with channel categories, search, favourites and EPG functionality.
- Developed navigation and interaction patterns for both touch-based mobile devices and Android TV/D-pad controls.
- Implemented HLS/DASH streaming using Android Media3.
- Independently handled application development, testing, improvements and release.

SuperStore Sales Analysis | Power BI, DAX, Excel, Time-Series Analysis

- Analyzed 5,902 sales records covering orders, customers, products, regions, sales, profit and returns.
- Cleaned and prepared the dataset and developed DAX calculations for key business metrics.
- Built an interactive Power BI dashboard with filters, slicers, sales and profit analysis, and time-series forecasting.
- Analyzed regional performance, customer segments, product categories, returns and shipping trends.
- Identified that corporate customers accounted for 35% of total sales while having the lowest return rate.

MonBaksho — E-commerce Website | Web Development, E-commerce, Responsive Design

- Designed and developed a responsive e-commerce website for online product sales.
- Built product presentation and management features according to business requirements.
- Worked across design, development, testing, revisions and delivery.
- Applied responsive layouts with attention to usability across different screen sizes.

PichiNote | Android, Voice Notes, Productivity

- Developed an Android application focused on quick voice-based note creation and management.
- Handled planning, development, testing and iterative improvements independently.
- Refined the application based on practical usage and additional requirements.

EDUCATION

Bachelor of Science in Software Engineering

2022

Daffodil International University — Dhaka, Bangladesh

TRAINING & CERTIFICATIONS

- Data Analytics Career Bootcamp — Human Development Network Bangladesh (HDNB)
- SQL & PostgreSQL for Beginners — Udemy
- UI/UX Design — Pencilbox Training Institute
- WordPress, Web Design & E-commerce Master Course — Mexemy
